PROJECTS

CineVerse – Movie Explorer App

HTML, CSS, JavaScript, OMDb API, LocalStorage

- Built a responsive movie app with authentication, protected routes, real-time movie search using OMDb API.
- Implemented favorites management, LocalStorage persistence, and dynamic UI rendering using JavaScript.

Bean & Brew Coffee House

HTML, CSS, JavaScript

- Developed a responsive multi-page coffee shop website with interactive UI components and animations.
- Implemented sticky navigation, hover effects, and responsive layouts for better user experience.

Smart Todo App

HTML, CSS, Vanilla JavaScript, LocalStorage

- Created a task management app with CRUD operations, task filtering, search, and priority management.
- Used LocalStorage and DOM manipulation for persistent storage and dynamic rendering.

Responsive Email Template

HTML, CSS

- Designed a responsive email template using table-based layouts for cross-client compatibility.
- Applied responsive design and structured UI techniques for professional email styling.
